Assistant SAC Moore telephoned with reference to the crash of United Airlines plane. He stated that this plane crashed ten minutes after take-off from Denver, Colorado. Thirty-nine passengers and five crew members were killed. There are no survivors. He stated the material was spread over an area one mile wide and three miles long but it is easily accessible.

b7C

He further advised that [redacted] of United Airlines, Chicago, has contacted the Denver Office and indicated they would undoubtedly ask for assistance from the Bureau in identifying the bodies.

b7C

Denver further advised that [redacted] Civil Aeronautics Board, Kansas City, has contacted the Denver Office and advised that he is in charge of the investigation of the plane crash and requested the Bureau's cooperation in making available an explosives expert to assist in the investigation of the crash.

b7C

I contacted SAC Hostetter at Chicago and advised him to obtain the passenger list as quickly as possible. He advised that they had already been contacted by United Airlines. The passenger list is being compiled and will be transmitted to the Bureau for name search for fingerprint cards some time this morning.

RECOMMENDATION

That I be authorized to proceed to the scene of the crash with identification experts to render assistance in the identification of the bodies. The matter of the explosives expert is being covered by a memorandum from Mr. Belmont of the Domestic Intelligence Division.

Mr. Tamm called from Longmont, Colorado, at 11:55 a.m. today. There were 44 people on the plane consisting of 5 crew members and 39 passengers. (One of the passengers was an infant.)

When Mr. Tamm and the identification crew arrived at the crash scene 10 of the bodies had been already identified and removed. This left a balance of 34. Through fingerprints 21 of these 34 have been identified by Bureau personnel at the crash scene. This leaves a balance of 13 who have not been identified by fingerprints. These 13 consist of 1 man and 12 women.

Mr. Tamm said that the bodies were in fairly good condition. They still have clothing on them and it was possible to secure dental charts which the United Airlines crash crew is now doing. They are still making efforts, however, to identify these remaining 13.

Mr. Tamm feels that they will be able to wind up the affairs by noon tomorrow and return to Washington by plane on Friday afternoon. He is planning on leaving Denver on 12:40 p.m. flight, 11-4-55.

Mr. McGuire in Mr. Nichols' Office was furnished with the foregoing information immediately after the call.

Airlines

The attached news service clipping reports that Charles Wilson, Wisconsin explosives expert, is employed by United Airlines officials to aid in the investigation of the United Airlines crash November 1, 1955, near Denver, Colorado. The Director's notation inquired, "Who is this Wilson?"

b7C

We have known of Wilson and his reputation for many years. He was with the Northwestern University Crime Detection Laboratory during the 1930's and handled firearms identification work in that laboratory. From 1938 to 1947 he was Director of the Northwestern Laboratory and separated from it when the laboratory was sold to the Chicago Police Department. Since that time Wilson has been head of the Wisconsin State Crime Laboratory.

According to our information, Wilson is not a college graduate, though he is reported to have attended the University of California. He is not a specialist in any technical line. We have no information that would justify his being an "outstanding authority" or even an expert in the field of explosives. Wilson and his laboratory are somewhat of a joke in law enforcement circles in Wisconsin. He is reputed to seek business for his laboratory and has even antagonized law enforcement agencies by injecting himself into cases receiving a great deal of publicity. When he runs into an examination which he does not know how to handle, he simply lays it aside and forgets it and we understand in many cases no report is ever submitted. He does seek publicity, but has never caused the Bureau any problem in this respect.

As reported in my memorandum of November 3, 1955, I talked to the SAC at Denver to insure that his employment was by United Airlines and, therefore, not in conflict with our assistance to the Civil Aeronautics Board. I learned that United Airlines had hired him without knowing that the Civil Aeronautics Board had requested Bureau assistance.

I told the SAC at Denver to see that Wilson was kept out of our way and that none of our findings were made available to him. United

November 3, 1955

FOR IMMEDIATE RELEASE

The Department of Justice announced today that FBI fingerprint experts have identified twenty-one out of forty-four victims of the United Airlines plane crash near Longmont, Colorado, on November 1, 1955.

J. Edgar Hoover, Director of the FBI, stated he dispatched experts to Greeley, Colorado, where the bodies had been taken, on the day following the crash. Nine of the victims had been identified by other means when the fingerprint experts arrived, and of the remaining thirty-five, twenty-one were identified by the FBI.

The identifications were based upon comparison of the victims' fingerprints with fingerprint cards of individuals with the same names and birth dates which were removed from the Identification Division's noncriminal files and flown to Denver.

This is the second time within a month the FBI has assisted in identifying victims of a plane crash. On October 6, 1955, a United Airlines plane crashed near Laramie, Wyoming, killing sixty-six people. FBI fingerprint experts identified forty-seven of this number from fingerprints in FBI files.

See Jones to Nichols memo 11/4/55
Press Release re Identification of victims of
United Airlines Plane Crash, Longmont, Colo., 11/1/55
W.D.
98-43035-3

ENCLOSURE

The recent experiences at Laramie, Wyoming, and Longmont, Colorado, illustrate only one of the many uses to which fingerprints can be put. It is a common occurrence for the FBI to identify unknown dead, amnesia victims, and missing persons as a result of fingerprint comparisons with fingerprint cards maintained in the noncriminal files. The major contributors to this file are the Armed Forces, the Civil Service Commission, private industry, the Immigration and Naturalization Service in connection with alien prints and private citizens who submitted their fingerprint impressions for personal identification purposes.

The FBI has more than 137,000,000 sets of fingerprints on file. These prints are maintained in two separate files--criminal and noncriminal. The noncriminal files contain the fingerprints of an estimated 60,500,000 persons while the criminal files contain the fingerprint impressions of more than 10,800,000 individuals fingerprinted in connection with police action.

At the request of the Civil Aeronautics Board (CAB) the Bureau is assisting in the investigation of the United Airliner crash on November 1, 1955, near Denver, Colorado, to the extent of sending a Laboratory man to see if there is any indication that there was an explosion aboard the plane immediately before the crash. SA [redacted] of the Laboratory went to Denver yesterday afternoon.

According to press and radio reports last night, the United Airlines have employed an "outstanding authority" in the field of explosives and identified this man as Charles M. Wilson, Head of the Wisconsin State Laboratory at Madison. Wilson's background and reputation are well known to us and he is not an outstanding authority in his field. While our relations with Wilson are highly satisfactory insofar as police matters are concerned, he has, in the past, shown an eagerness for publicity and indiscretion in some matters which he has publicly discussed.

In view of the above, I talked with SAC Burke at Denver this morning to find out why this outside expert was being utilized in view of the fact that the Bureau had agreed to assist. Burke said he had been in touch with CAB authorities and had also had a call from [redacted] the [redacted] in Denver. [redacted] assured Burke that the CAB did not know United Airlines was seeking any outside assistance and assured us that there would be absolutely no interference with our inquiry. United Airlines assured Burke that their Chicago Office had arranged to get hold of [redacted] only because they were unaware that the Bureau had agreed to give such technical assistance. Burke said that [redacted] of United Airlines, had expressed his extreme pleasure that the Bureau was assisting and had issued instructions that United Airlines employees in Denver were to insure that [redacted] in no way interfered with what the Bureau was doing. I told Burke to make sure that [redacted] did not in any way interfere with our examination and that any information we gave to CAB was not made known to [redacted]

Memorandum for Mr. Tolson

November 3, 1955

Burke said that he could assure the Bureau this would be done and there would be no problem and that a representative from United Airlines was simply going to stay with Wilson and let him get a general view of the wreckage and then let him go back to Wisconsin.

I told Burke this would be satisfactory and that we should take no part whatsoever in the United Airlines handling of their so-called expert since our assistance was solely at the request of the CAB.

ACTION:

None, for information.

we should have
assured ourselves
at the outset that
no other "expert"
would be used.

Dear Ray:

I heard your broadcast last night relative to the identification of the victims of the plane disaster near Longmont, Colorado, on November 1, 1955, and deeply appreciate your kind remarks regarding the service this Bureau was able to render on this occasion.

You have, I feel, done a real service in bringing before the public the value and importance of the noncriminal section of the FBI fingerprint files.

Sincerely,

Edgar

Longmont, Colorado

b7C

ASAC Moore called from Denver at 9:15 a.m. today (11/2), referring to Denver teletype of midnight last night reporting the crash of a United Airliner which had left Denver shortly before the crash.

ASAC Moore said that [redacted] Civil Aeronautics Board (CAB) representative from Kansas City advised he is [redacted] of the investigation for CAB. [redacted] advised there is a question in his mind about this crash because the plane disintegrated in the air about 10 minutes after it left Denver; the plane was over level ground; the captain of this plane did not communicate with ground control prior to the crash to advise there was any trouble, such as fire on the ship; and there is a strike of United Airlines flight engineers.

b7C

[redacted] asked that the Bureau send a Laboratory man to the scene to examine the remains of the plane, for the purpose of seeing whether there is any indication of the reason for the explosion. Moore said that the crime scene area is about one mile wide and three miles long.

In airplane crashes such as this, it is the responsibility of CAB to initiate investigation and determine the cause of the crash. The Bureau is not called in to investigate unless there is indication of sabotage. [redacted] is not asking us to investigate, but is asking for Laboratory assistance.

[redacted] said he is checking out one piece of baggage or freight, weighing 42 pounds, carried on the plane on air bill, which has not been checked through as to authenticity. This item was consigned from New York by [redacted] (phonetic). CAB is checking this.

b7C

SAC Burke of the Denver Office called at 9:58 p.m., November 1, 1955, and advised that the United Airlines plane Flight 629 which had left Denver at 5:52 p.m., MST, en route to Portland had crashed two miles north of Longmont, Colorado. It was a DC-6 plane with 38 persons aboard. Mr. Burke advised that he would submit a teletype when further details were available.

At 11:35 a.m. this morning SAC Webb Burke of Denver called concerning the captioned airplane crash. He advised that information developed by the [redacted] had suggested the possibility that the crash was caused by an explosion of some substance not normally found on an airplane. He advised that the nature of the portions of the plane examined suggested that the explosion took place in the baggage compartment three-fourth of the way back in the bottom of the plane. He stated that he had furnished additional details in this connection to Mr. Parsons. (Parsons wrote a more complete memorandum concerning the above.) I advised Burke that this matter should be followed very closely as it might be necessary for the Bureau to undertake investigation if the inquiry was reasonably conclusive that the accident was caused by sabotage. He stated that a definite conclusion in this connection was not yet reached but that [redacted] was then out of the office examining additional material. I instructed him to advise the Bureau fully by teletype as soon as more specific information was available.

At 4:36 p.m. Burke called and advised he was concerned over a development in that [redacted] went to the warehouse of UAL in Denver in order to look over baggage and other material which had been brought from the scene of the accident to the warehouse for storage. Upon arriving, [redacted] was told that the material had been sent back to Longmont Colorado, to the Imperial Hotel there for examination by the FBI and [redacted]. Burke said it was not clear whether there had been a misunderstanding or whether the material had been sent out for examination by [redacted] rather than the FBI examiner. He said he was going out immediately to find out what the situation was and would advise the Bureau. I told him to submit a teletype with all developments, including his recommendation whether or not the Bureau should handle the investigation.

Not having heard further from Denver, I contacted ASAC Moore at 7:14 p.m. and learned he had just talked with [redacted] for UAL, and that [redacted] advised him there had been a slight misunderstanding as UAL thought the FBI examiner was in Longmont and they had sent some baggage and other material back to Longmont for his examination and

EX-110

Memorandum for Mr. Belmont

possibly examination by [] [] stated, however, that the material had not been touched by anyone else and no one would handle it until the FBI examination; that there was no effort at all to circumvent the FBI in this matter. Moore concluded that this was a misunderstanding and that Burke was checking into the matter. I reminded Moore of the instructions which [] had given in connection with the examinations that there was to be no interference on [] part with the work of the FBI Laboratory man. Moore also advised that information had been received from [] that three wooden boxes of some kind of volatile material were shipped by a national concern and might have been on this flight; that if they were shipped they might well have been in violation of shipping regulations and this material might figure some way in this crash if it was, in fact, on this plane. This is being checked out by UAL. Moore was instructed to see that a teletype was sent to the Bureau shortly summarizing all developments. b7C

This is for information.

ADDENDUM: (FJB:jdd, 11-4-55)

At 11:05 p.m., 11-4-55, after reading Denver teletype regarding this matter which arrived at the Bureau at 10:06 p.m. I called SAC Burke at Denver. I told Mr. Burke that the Bureau needed more details concerning this situation and instructed him to send another teletype to the Bureau tonight answering in detail the following questions: (1) Is any evidence available that some person placed explosive material on the plane for possible sabotage purposes? (2) Furnish all facts and latest developments regarding the [] package. (Information had been received earlier that a package addressed to [] in Seattle, Washington, had been put on the plane at Denver.) (3) Is there any indication explosive material was being legitimately shipped on this flight? (4) Furnish detailed information concerning the strike of flight engineers at Denver; give name of union involved; whether there is picketing; whether acts of violence have occurred around the airport and whether there is any indication the plane crash was the result of an act on the part of the striking flight engineers. Also furnish any other factors which would bring this crash within the investigative jurisdiction of the Bureau. (5) Furnish a recommendation of the Denver Office as to whether the possibility of sabotage exists and whether the Bureau should initiate investigation regarding this crash. b7C

THE ATTORNEY GENERAL

November 14, 1955

Director, FBI

CRASH OF THE UNITED AIRLINES DC-6B
FLIGHT 629
LONGMONT, COLORADO
NOVEMBER 1, 1955
SABOTAGE

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

DATE 2/13/04 BY 60290 CML/BCE/HT/LM

Reference is made to my memorandum dated November 8, 1955, advising that the FBI was instituting an investigation of the crash of a United Airlines DC-6B at Longmont, Colorado, on November 1, 1955, in which 44 persons were killed.

Jack Gilbert Graham was arrested at 5:42 a.m., Eastern Standard Time, this morning by Special Agents of the Denver Office of the FBI on the basis of a signed statement which he furnished admitting that he had caused the explosion which wrecked the plane in order to collect \$37,500 insurance which he had purchased on his mother, Daisy King, a passenger on the plane. Graham admitted that he prepared a time bomb using 25 sticks of dynamite which he placed in his mother's luggage.

The facts in this matter were furnished to United States Attorney Donald E. Kelley at Denver, Colorado. Mr. Kelley stated that he would authorize the filing of a complaint under Section 2155, Title 18, United States Code, one of the Sabotage statutes. He said that in all probability Graham would eventually be turned over to the State of Colorado for prosecution for murder.

A complaint will be filed before a United States Commissioner at Denver, Colorado, pursuant to the authorization of United States Attorney Kelley this morning as soon as a United States Commissioner is available.

By reference from the Director's office, I talked to George McWilliams of the Denver Post who was calling from Denver. He referred to the United Airlines crash of November 1. He stated that he fully realizes the necessity of closing down on information since the Bureau has entered the investigation to determine if there is any sabotage. He stated there are a lot of ridiculous things coming up and they were wondering if there was any way whereby the Bureau in Washington could make any statement which would clarify the matter. For example, he stated there was a ridiculous report out of Washington that two boxes of Cordite had been loaded on the plane, that yesterday there were widespread stories afoot in Denver that a piece of a bomb had been found; however, this was rather effectively knocked down.

b7C

I told McWilliams as he, of course, very well knew that we were willing to help out in any possible way we could. However, since our investigation had just gotten under way a couple of days ago, there was nothing we could say until all the facts were developed and then we would have to be governed by the developments.

McWilliams asked if there was anything we could say today and I told him there was nothing we could say other than what we had already stated, namely, that we had initiated an inquiry to determine if there was any evidence of violation of Federal laws within our primary jurisdiction. McWilliams inquired as to my name and title which I gave him.

He then asked what procedure should they follow if something should come up. I told him they should check with the Denver office, that Webb Burke would be glad to help out in any way he could but that at the present time there was nothing Mr. Burke could say to help out just as there was nothing we could say in Washington.

EX-125

RECORDED-99
INDEXED-99

16 NOV 14 1955

McWilliams stated he thoroughly understood and that he fully realized our position but he did point out that some of the ridiculous stories which arise might be knocked down to the advantage of all concerned. I told him we would have to judge each one as it came up, but, basically speaking, until such time as our investigation had been completed and there had been some affirmative development, there was nothing we could say. He again agreed this was understandable and proper.

UNSUBS, INFORMATION REGARDING RECENT CRASHES OF TWO UNITED AIRLINES
PLANES, SABOTAGE. ON NOVEMBER FIVE, FIFTYFIVE [REDACTED]

[REDACTED] EMPLOYED BY UNITED AIRLINES AT
THE INTERNATIONAL AIRPORT, LOS ANGELES, TELEPHONICALLY ADVISED NYO
HE RESIDES AT [REDACTED]

STATED THAT DURING THE LAST TWO MONTHS THERE HAVE BEEN TWO MAJOR
AIRCRAFT CRASHES OF UAL PLANES, ONE OF WHICH OCCURRED ABOUT A
WEEK AGO AND BOTH OF WHICH OCCURRED AFTER THE PLANES HAD LANDED
AT DENVER, COLORADO. [REDACTED] STATED THAT HE KNOWS OF TWO OTHER
INCIDENTS INVOLVING UAL PLANES IN WHICH BOTH ALSO HAD LANDED AT
DENVER AND SUBSEQUENTLY DEVELOPED SEVERE LANDING GEAR TROUBLE.
CRASHES WERE AVERTED AND [REDACTED] HAD OCCASION TO [REDACTED]

PLANES AT LA. IN HIS OPINION, A POSSIBILITY OF SABOTAGE EXISTS
AND HE EMPHASIZED THE FACT THAT IN EACH OF THE FOUR CASES THE PLANE
HAD LANDED PREVIOUSLY AT DENVER. [REDACTED] STATED CAA HAS NOT
BEEN ADVISED OF THE INCIDENTS INVOLVING THE LANDING GEAR SINCE
THEY DID NOT RESULT IN ACCIDENTS. HE FURTHER STATED HE HAS NOT
DISCUSSED HIS SUSPICIONS RE SABOTAGE WITH CAA OR UAL. RE THE LATTER,

[REDACTED] STATED HIS JOB WOULD BE IN JEOPARDY IF IT WERE KNOWN
HE HAD GONE TO THE FBI BECAUSE UAL WOULD NO DOUBT FEEL HE SHOULD
HAVE CONSULTED WITH THEM FIRST. THEREFORE, HE WISHES HIS IDENTITY
TO REMAIN CONFIDENTIAL EVEN WITH CAA IF IT IS NECESSARY TO REFER
THE MATTER THERE. [REDACTED] STATED HE WILL CONTACT THE FBI IN LA

END PAGE ONE.....

Mr. Belmont

PAGE TWO....

SHORTLY AFTER HIS RETURN ON OR ABOUT NOVEMBER EIGHT, FIFTYFIVE,
BUT BEFORE HE DOES SO HE WILL COLLECT ALL DATA, INCLUDING THE
NUMBERS OF THE FLIGHTS DURING WHICH THE GEAR TROUBLE DEVELOPED AND
TECHNICAL DATA BEARING ON THE POSSIBILITY THE TROUBLE MAY HAVE BEEN
THE RESULT OF SABOTAGE AND NOT MERELY ROUTINE MECHANICAL FAILURE.

[REDACTED] PASSING THROUGH NYC ON VACATION AT TIME COMPLAINT RECEIVED^{b7C}---

THE ABOVE IS FOR THE INFO OF THE BUREAU, LA AND DENVER. NO FURTHER
ACTION BY NYO.

Crash Sab

With reference to your memorandum of today's date concerning the reward circular which United Air Lines (UAL) desires to release and in accordance with the Director's approval, I called ASAC Moore at Denver at 4:50 PM and advised him that he should inform [redacted] that the question as to whether such a circular should be put out is up to the United Air Lines and that we have no suggestions to offer as to the wording of the circular as we are neither approving nor disapproving it.

ASAC Moore said he would so advise [redacted]. He further stated that subsequent to his earlier call to you, minor changes were made by the United Air Lines officials in the proposed circular. These changes are -

- (a) In Paragraph 1, line 1, the words "now being conducted" are being deleted.
- (b) In Paragraph 2, line 2, the words "evidence that will lead" are being replaced by the words "information leading".
- (c) In Paragraph 2, line 3, the words "who caused or were" are being deleted.

Moore advised that since the Bureau was interposing no objection, he presumed the circular would be released in accordance with the above wording.

RECORDED - 50

98-43035 - 2

This is for information.

ASAC Roy Moore called from Denver at 1:50 p.m.

today (11/10) to advise that

[redacted] of United Air Lines (UAL) had called the Denver Office, at the request of [redacted] of UAL, to advise that UAL is contemplating a circular offering a \$25,000.00 reward to anyone reporting information leading to the arrest and conviction of those responsible for the explosion in the plane. Moore said [redacted] is anxious that United Air Lines do nothing that would interfere with the Bureau's activities in this matter; consequently, he is going to call back in an hour to see if the Bureau desires any changes in the form of the circular or has any comment to make.

b7C

b7C

The proposed circular reads as follows:

"Investigation now being conducted with regard to the explosion occurring aboard the aircraft on United Air Lines Flight 629 on November 1, 1955, near Longmont, Colorado, indicates that the explosive was completely foreign to the aircraft or to operations in the Air Line itself.

"United Air Lines, Inc. offers a total reward of \$25,000.00 for evidence that will lead to the arrest and conviction of any person or persons who caused or were responsible for the explosion occurring in the aircraft on United Air Lines Flight 629 on November 1, 1955, near Longmont, Colorado.

"Such evidence should be submitted to the nearest office of the Federal Bureau of Investigation or United Air Lines, Inc., or the nearest law enforcement agency.

"Dated this 10th day of November, 1955.

"United Air Lines, Inc.

b7C

Memo to Boardman from Belmont

I told ASAC Moore our position probably would be that it is entirely up to the United Air Lines whether they put out a circular or not, and the Bureau will neither approve nor disapprove of it; however, I told Moore I wanted to check on the publicity aspects and, therefore, would call him back shortly.

Moore said that [redacted] was particularly concerned whether he should have the phrase "or the nearest law enforcement agency" in the circular or whether the Bureau would prefer that the reporting of information be restricted to the FBI and United Air Lines.

b7C

RECOMMENDATION:

Mr. Nichols and I agree that ASAC Moore should be advised to inform [redacted] that the question as to whether such a circular should be put out is entirely up to the United Air Lines and that we have no suggestions to offer as to the wording of the circular, as we are neither approving it nor disapproving it.

b7C

If you agree, Moore will be so advised telephonically.

I agree as this is a self serving
act on part of United air lines

ZB.

[redacted]
VBB

b7C

I agree. I don't like
this but I don't
see how we can
tell them not to do it

OK.

Crualsab

Denver is office of origin in this case. Denver teletype 11-9-55 suggests that for economy reasons code name "Crua1" be adopted for this case. This case will have widespread ramifications since it will involve investigations as to all the deceased passengers and crew members as well as checking on cargo, mail, baggage, et cetera, shipped from various points and there will be many leads developing from time to time which should be set out expeditiously and will require teletypes, airtels, and memoranda, interoffice, from offices to the Bureau and from Bureau to field offices. Present title requires two complete lines on a teletype. It is believed that a code name should be adopted in the interest of economy to be used on all communications except investigative reports, which should be disseminated under the proper caption. It is believed the title suggested by the Denver Office would be improved by adding the letters "sab" in order to indicate that this is a sabotage case. The code name would then be "Crualsab." *

RECOMMENDATIONS:

ALL INFORMATION CONTAINED
 HEREIN IS UNCLASSIFIED
 DATE 2/13/04 BY 60290 mcl/act/mcl/la

1. If you approve the attached airtel will be sent to Denver, copies to all offices, advising them of the code name this case.

RECORDED - 25

98-43035-

2. This memorandum should be routed to the Records Section in order that they will be aware of the code name used in this matter.

16 NOV 15 1955

* This code word cleared with Records Section and code room who advised that it would present no conflict with existing code words.

I told the Attorney General that the subject will be arraigned this morning before the Commissioner on a charge of sabotage of a National Defense instrument, namely, an airplane, and the United States Attorney will probably turn him over to the state authorities on charges of murder as there were forty or more people on the plane who were killed in the crash. The Attorney General expressed his appreciation for the work done on this case and asked that his congratulations be extended to the Agents who worked on the case.

SUBJECT: CRASH - UNITED AIR LINES DC-6
 FLIGHT 629 - LONGMONT, COLORADO
 NOVEMBER 1, 1955

Crua 1526

At 5:50 p.m. SAC Burke called from Denver to advise that [redacted] Division of the Civil Aeronautics Board at Washington, D. C. and [redacted] at Kansas City, had just left his office following a discussion of the recent United Air Lines crash near Denver. These gentlemen advised that they have about concluded their check into this matter and have concluded that the crash was caused by a terrific explosion in the baggage compartment of the plane. They have concluded that the explosion did not result from a part of the plane itself or something that would normally be in the plane and that the plane did not malfunction. SAC Burke advised that these men officially requested that the Bureau enter the investigation to determine whether the crash was caused by sabotage.

SAC Burke was sending in a teletype with his recommendation as to whether the Bureau should enter the investigation. He advised [redacted] and [redacted] that their request would be furnished to headquarters of the Bureau.

ACTION:

We are carefully examining the information to date and will examine the Denver teletype upon receipt after which a recommendation will be submitted as to whether we should conduct investigation in this case.

The New York Office is handling a number of leads in connection with the crash of United Airlines plane, Flight 629, at Longmont, Colorado, on November 1, 1955.

On November 10, 1955, ASAC Simon of the New York Office called and stated he wanted Bureau authority to contact members of the families of the deceased passengers who were on the ill-fated plane. I told [] that this is a simple criminal-type investigation and that a portion of the investigation will be directed toward determining whether the plane could have been blown up by someone who had a motive to do away with one of the passengers. I told him that generally it would be necessary to contact relatives and members of the families of the deceased passengers. I asked him whether he had any specific questions concerning interviews with any specific individuals. [] stated he did not have any specific examples but just wanted to know generally whether it would be alright to contact members of the families of the deceased passengers. I told him that it would be alright to contact members of the families but told him that if any specific problem arose and New York had any doubt as to the propriety of contacting any specific individual, the matter should be cleared through the Bureau prior to the interview.

I pointed out to [] that the Bureau had already issued instructions that complete background investigations should be conducted with regard to each of the passengers in an attempt to establish a motive for homicide in connection with this matter. He said that New York had received the Bureau's instructions. b7

ACTION:

This entire matter is being closely followed, and you will be kept advised of pertinent developments.

BAUMGARDNER

There was contained in the "Denver Post" for November 3, 1955, page two, an article captioned "Airline Probe Recalls 2 Midair Bomb Plots."

The first referred to the Quebec crash on September 9, 1949, which was caused by a time bomb placed aboard the plane by ALBERT GUAY, 32, a jeweler. The explosion, which blasted the plane to bits in the air, killed GUAY's wife and 22 others.

The second case referred to which allegedly was nipped by police in Dallas, Texas, before it could be carried out, was just a week after GUAY was hanged, in January, 1951. It involved a man named JACK TODD, 30, well-known Dallas police character, who was arrested as he boarded an American Air Lines DC-6 carrying an eight-inch stick of nitroglycerine.

Authorities said the jellied nitroglycerine was powerful enough to have blown the plane, carrying 48 passengers, to bits. The explosive was found in TODD's pocket and he was removed from the plane.

It is suggested that the Dallas Office review the facts of this case with the Dallas Police to ascertain if there could possibly be any connection between JACK TODD and this disaster. Also, it is pointed out, that there was one, CLARENCE W. TODD, passenger, on Flight 629, whose home address is 226 Del Monte Avenue, Tacoma, Washington. It is suggested that information supplied by the Dallas Office be furnished the Seattle Office who is investigating the background of CLARENCE W. TODD, the passenger on Flight 629.

SUBJECT: JACK GILBERT GRAHAM, with aliases
JOHN GILBERT GRAHAM, JACK KINGCRASH - UNITED AIRLINES DC-6, FLIGHT 629
LONGMONT, COLORADO, NOVEMBER 1, 1955
SABOTAGE

At 12:30 PM, 11-14-55, I called Denver regarding developments in this case. ASAC Moore advised that subject Jack Graham had been arraigned at 10:00 A.M. (12:00 noon, our time) before U. S. Commissioner Harold S. Oakes, waived preliminary hearing, held in lieu of \$100,000 bail. He was represented by Attorney J. R. Strickland, family attorney who is handling the mother's estate. He is being lodged at the Denver County Jail. Inasmuch as Graham indicated to Agents he would like to commit suicide, the U. S. Marshal was notified of this fact and the Denver County Jail is likewise being notified.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/17/04 BY 60290 MCG/ML/MLA

Moore said that the FBI has received numerous congratulations at the Denver Office, including a telephone call from Axel Neilsen, fishing buddy of President Eisenhower, a personal visit by President Patterson of United Airlines, a wire from Jack Carley of the Memphis Commercial Appeal and congratulations and appreciation from the newspapers, wire services, and radio concerning the way the publicity was handled.

I told Moore that it was essential that subject Graham's story be bolstered by evidence gathered by investigation. Moore said that he had practically every man out on the street checking into the story and covering leads pertaining to Graham. I asked how Graham first came to the attention of the Denver Office. Moore said that Denver [redacted] who is a [redacted] had talked to [redacted] some time after the crash and [redacted] told her that it was particularly hard on Jack Graham as he had placed a present in his mother's suitcase unknown to the mother. This started Denver checking on Graham and they came up with his bad background. A subsequent call from a friend of a carpenter who had assisted in the repair of Graham's drive-in restaurant reflected that the carpenter had told his friend that the explosion at the drive-in restaurant did not look right. Moore said he had had several calls today following the publicity from persons who had furnished information regarding Graham, presumably exploring the \$25,000 reward offered by United Airlines. To each of these Moore said he replied that the information furnished was merely accumulated and that the original lead was not attributable to sources outside the Bureau.

For your information. We will continue to follow this closely.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/17/64 BY 60290 mac/bce/mct/ota November 14, 1955

The Department of Justice announced that FBI Agents arrested early this morning John Gilbert Graham, 23, in Denver, Colorado, in connection with the crash of Flight 629, United Airlines Plane, in the vicinity of Longmont, Colorado, on November 1, 1955. John Edgar Hoover, Director of the FBI, stated that Graham is presently in the custody of Special Agents of the Denver Office of the FBI and that United States Attorney Donald E. Kelly has authorized the filing of a complaint as soon as the United States Commissioner in Denver is available. Graham will be charged with violating Section 2155, Title 18, United States Code, in that he sabotaged the ill-fated United Airlines Plane. He will be arraigned later this morning.

Investigation by the FBI has disclosed that Graham took out \$37,500 in insurance on his mother, Mrs. Daisy King, when he took her to the Denver Airport on November 1, 1955. Mrs. King was en route to Anchorage, Alaska, and was among the 44 persons who died in the crash.

Graham was born in Denver in 1932. He was placed in an orphanage following the death of his father in 1935. He later lived with his mother and stepfather, Mr. and Mrs. Earl King, until he was 15 years of age. He has worked in Spenard, Alaska, was discharged from the Coast Guard as a minor in 1949, worked as a mechanic at Grand Junction, Colorado, and since the death of his stepfather assisted his mother in operating a drive-in restaurant in Denver. In September, 1951, Graham was arrested in Lubbock, Texas, on an illicit liquor charge and received a sixty-day jail sentence. In November, 1951, Graham was convicted on forgery charges in Denver growing out of the forgery of 42 checks for \$100 each drawn on a Denver concern. He received a five-year suspended sentence in State Court in Denver and was placed on probation. His mother made restitution of \$2500 and Graham has been making monthly payments on the unpaid balance which has now reduced to \$105.

Graham is married and resides at 2650 West Mississippi Avenue, Denver, Colorado.

CRUAL - SABOTAGE

Franklin D. Roosevelt
11-3-55 Sabotage

Re Denver teletype to Bureau, 11/9 and 10/55.

Investigation conducted at Oakland and Hillsborough, Calif.,
revealed following information concerning crash victim, [redacted]

b7C

[redacted] Oldsmobile
Division, General Motors Corporation, 508 16th Street, Oakland,
advised [redacted] was his [redacted] at Oakland headquarters
of Oldsmobile for past few years and that he was well acquainted with
[redacted] on a [redacted] and was also acquainted with [redacted]
[redacted] stated that [redacted] and his [redacted] were very devoted to one another
and that [redacted] was financially sound and a man of high caliber.
He stated that [redacted] was very well liked by his fellow employees,
that he was a very stable individual, and that he knew of no enemies.

b7C

[redacted] stated that he considered homicide motive concerning
[redacted] as absolutely absurd. [redacted] further stated that [redacted] has
never been known to carry any explosives. He stated that [redacted] and his
[redacted] were both of excellent character and personal habits.

b7C

[redacted] advised she
drove husband to SF airport prior to his departure, at which time he
had 3 pieces of luggage with him; namely, 1 brown briefcase with
Mexican design in leather, 1 dark brown two-suitcase with
square corners, and 1 transparent silver clear plastic bag for suits.
She was unable to recall any tags or initials on any of the above
pieces of luggage. She stated that she was certain that her husband
did not carry any explosives in his luggage.

[redacted] stated that she was absolutely certain that her
husband had no enemies. No unfavorable information at local credit
bureau concerning [redacted] Criminal records negative.

CRASH, UNITED AIRLINES, DC-6,
FLIGHT 629, LONGMONT, COLO.,
11/1/55
SABOTAGE

b7C

b7C

On 11/9/55,

[redacted] telephonically contacted [redacted]

[redacted] to offer his thoughts in this

investigation.

He prefaced his remarks by saying that he is an

[redacted] and during WWII was

[redacted] at the Orlando, Fla. Air Base,

whose one job was investigation of aircraft accidents and explosions. He specifically recalled in one aircraft explosion he knew about, it was found that iron filings placed in the hydraulic solution of the aircraft caused a terrific explosion when exposed to air. This point led him to the thought that if any of the luggage on instant aircraft were a magnesium compound or derivative, and this luggage contained or had access to a petroleum base oil, a definite reaction would take place that would result in an explosion upon contact with the atmosphere.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Nichols

FROM : M. A. Jones

SUBJECT: FULTON LEWIS, JR., BROADCAST
7:00 PM, WWDC
NOVEMBER 9, 1955

DATE: November 9, 1955

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/17/04 BY 60290 AUC/BCE/MLT/WT

Fulton Lewis, Jr., in his broadcast on November 7, 1955, made reference to comments which he had made previously on September 1955, in which he stated that organizations, such as the Fund For the Republic claiming tax exemption were required to file statements of justification with the Internal Revenue Service. Lewis indicated that at that time he had stated that he felt that keeping these statements of justification confidential was in the public interest, as citizens should have access to this information.

Lewis added that Under Secretary of the Treasury H. Chapin Rose had told a Congressional Committee that Secretary of the Treasury George Humphrey felt the same; namely, that the public should have access to this data. According to Lewis, Rose indicated that legislation to this effect would be requested of the Congress. Lewis stated he was glad to announce that, after delays, the books containing his broadcasts on the Fund For the Republic, would be mailed out this week end. He added that through a public benefactor a copy is being sent to each of 7,500 public libraries in the country.

Lewis also mentioned that the FBI had stepped into the investigation of the recent crash of the United Airlines plane in Colorado, apparently convinced that it involved an act of malice. The Agents in charge, he said, admitted having very little to go on and that the problem of finding the criminal was certainly going to be a tough one, involving one of the most extensive and complicated man hunt in history. The investigative organization will have to trace down thousands of possible leads inasmuch as every person who came in contact with the plane who could have carried the bomb aboard will have to be investigated. This would include passengers, the crew, mechanics, etc. Lewis added, however, that you could be assured that the culprit would be found.

RECOMMENDATION: None. For information.

I talked to ASAC Moore of Denver about 5 p.m. today regarding developments in this case. Moore advised that USA Kelly had just called him and said that he had been talking to Mr. Olney of the Department and that it was the opinion of Olney and Kelly that Graham should be turned over to the Denver County District Attorney unless the Department can come up with some other Federal statute on which Graham can be charged. Kelly said there is a Colorado statute covering murder wherein venue would lie both in Denver County where the airplane flight started and in Greeley County where the plane crashed. As prosecution would be easier in Denver, the decision will probably be made tomorrow, November 15, to turn Graham over to Denver County authorities. As to this, I think our position should be this is up to the United States Attorney and the Department as the strongest case appears to be a murder case.

ASAC Moore said during the Civil Aeronautics Bureau inquiry the United Air Lines (UAL) set up a "mockup" which was a wooden frame of an airplane on which the various pieces of the wrecked plane were pasted to assist in arriving at a conclusion as to what happened to cause the crash. This is in custody of UAL. USA Kelly told Moore that Time and Life magazines, the wire services and local newspapers want to photograph this "mockup." ASAC Moore told Kelly this was a matter for Kelly to decide and the FBI had no comment. I think this is a correct position.

RECORDED - 50

NOV 16 1955

I asked Moore whether Kelly used Graham's confession at the hearing today. Moore said USA Kelly had the confession but did not find it necessary to bring it out during the hearing. District Attorneys Keating and Smith were present at the hearing and, according to the paper, went into a conference with USA Kelly after the hearing regarding possible filing of a murder charge. Kelly later advised the press that there had been a confession and that a decision would be made within 48 hours as to whether a murder charge would be filed.

MB:jdc 11/13/55
(5)

Kelly gave out the details of the confession as I heard it on the radio. H.

Memorandum for Mr. Boardman

I asked Moore whether the alleged [redacted] who Graham claims gave him the dynamite, was named in the confession. Moore said that [redacted] was not included in the confession. I told Moore to run out the leads on the [redacted] angle as quickly as possible in case there is publicity on that. Moore said he is convinced that Graham's story regarding [redacted] is fictitious; that Agents are running the story out b7C but have come up with absolutely no corroboration; they are pushing investigation hard.

RECOMMENDATION:

None. We are following this closely.

SUBJECT: JACK GILBERT GRAHAM, was
John Gilbert Graham,
Jack KingCRASH, UNITED AIRLINES DC-6
Flight 629
Longmont, Colorado
November 1, 1955
SABOTAGEALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/17/04 BY 60290 nact/ndh/etwThis is to advise of the events leading to the arrest of
Jack Gilbert Graham for dynamiting United Airlines plane at Longmont
Colorado, 11-1-55.

At about 6:00 p.m., 11-13-55, I called ASAC Moore at Denver. b7C
Moore said that they began interviewing a suspect, Jack Gilbert Graham, b7C
at 1:00 p.m., Denver time, 11-13-55. At the inception of the interview
he was questioned in a routine manner merely as a relative of the deceased.
His mother, Daisy King, was one of the passengers who were killed in the
plane crash. Graham stood the benefit by inheriting a portion of her estate
which was estimated in excess of \$150,000 and further Graham's [redacted]
[redacted] told the Agents that Graham had taken out insurance to the
total of \$37,700 in three policies at the airport on his mother. She said
that Graham was the beneficiary of one of these policies. I told Moore
to be sure and consider obtaining a waiver from Graham for a possible
polygraph test and to keep me advised of all developments.

Moore called back at 9:30 p.m., and stated that beginning at
6:40 p.m., Denver time, they had started interviewing Graham thoroughly
and that they had caught him telling three different stories about an
alleged "Christmas package" which his wife had reported that he had put in
his mother's luggage. Graham first denied that he had put a Christmas
present in his mother's luggage, then said that he had bought such a
present but did not put it in her luggage. His third story was that he
had put a Christmas package in her luggage, that it was "hot goods"
consisting of some special knives and instruments to carve sea shells.
It should be noted that Daisy King was going to Anchorage, Alaska. Moore
said that Graham had given written waivers for a polygraph test and for
consent to search his residence, automobile, truck and tool kit. I told
him to go ahead and make these searches.

PRB:111
(7)RECORDED-11
77-7298-43035-1
TO NOV 16 1955

Memorandum for Boardman

At 2:15 a.m., 11-14-55, Moore called and said Graham had admitted that he put 25 sticks of dynamite in his mother's luggage which was placed on this plane. He did this in order to collect the insurance. Moore said that they were taking a signed statement. He said that Graham had been told right along that he was not under arrest, that he was free to go and that he could have an attorney. Graham is on probation from a state charge of forgery. The search of his residence showed an insurance policy in the amount of \$37,500 taken out by Graham on his mother at the airport naming him as beneficiary. A piece of copper wire was found in his shirt pocket and some rifle cartridges were found from which the powder had been removed.

At 3:45 a.m., Moore advised that a doctor examined Graham and found him to be in good condition. Moore said the signed statement was being typed. Graham said he had been displeased with his mother who had been criticizing him because he was not making any money in operating the Crown-A Drive-In which she had bought for him in Denver. At this drive-in he had finally disconnected a gas pipe which caused an explosion at the drive-in. He was also involved in another incident wherein he put his car on the railroad tracks after he had had an automobile accident so that he could collect more insurance. Graham said that shortly after the United Airlines crash in Wyoming where 66 people were killed in early October, 1955, he met a man in a restaurant in "skid row" in Denver who was a German named [redacted]. He said he and [redacted] talked about the crash and [redacted] told him b7C he knew how to wreck a plane. After some other meetings [redacted] came to the drive-in and gave Graham 25 sticks of dynamite, some caps, a timing device, and a dry cell battery. [redacted] showed him how to hook it up. Graham does not know who [redacted] is or how to reach him.

Graham said that he kept this material in his car until 11-1-55 when his mother was to leave on the plane. He then took it out, set the timer for the maximum time of one and one-half hours, put it in his mother's luggage and took her to the airport. He and his wife had breakfast at the airport and heard, while still at the airport, that the plane had crashed. At 4:15 a.m., Moore said that among the exhibits in this case there was a piece of what appeared to be a six volt hot shot battery.

At 5:05 a.m., I called Moore and told him to call the United States Attorney to see if Graham could be held on a Federal charge. At 5:30 a.m., Moore said that USA Donald E. Kelly, Denver, authorized holding Graham under Section 2155, Title 18, United States Code, complaint to be filed today as soon as a commissioner was available. Moore said Kelly would use this as a holding means and that he thought that Graham would eventually be prosecuted on a state charge of murder and that the complaint would be dismissed. I told Moore to tell Graham he was under arrest and

Memorandum for Boardman

to see if he desired to make a written request that he stay in custody of the Agents pending the availability of a commissioner. I also told Moore to get the complaint and warrant as soon as possible.

Mr. Nichols was advised as to a press release. It should be noted that SAC Burke advised at 5:00 a.m. that Graham's [redacted] b7C [redacted] is a cousin of SA [redacted] and [redacted] Denver; however, these employees have not been close associates of their cousin.

Moore advised at 6:30 p.m., that Graham was placed under arrest at 3:42 a.m., Denver time. He executed a statement requesting that he remain in custody of the Agents rather than go to jail until a commissioner could be located. He admitted that he had experimented with a trial explosion in a trash barrel at the drive-in. Moore said that they had taken photographs of Graham and that photographs would be available at Denver for the news services within an hour or two.

At 7:05 a.m., 11-14-55, pursuant to instructions from Mr. Nichols [redacted] telephoned Moore, told him to go ahead and release to the press a statement which had previously been ok'd by Mr. Nichols and to stick to that statement. Moore was also told to advise the USA, United Airlines, and the Civil Aeronautics Board at Denver immediately. Moore advised at this time that they had recovered what appeared to be another piece of a battery, consisting of one of the terminal poles, in the crash debris. Mr. Nichols advised that he released the facts to the news services at Washington concluding his release at 7:16 a.m., 11-14-55.

ACTION:

b7C

For your information.

ADDENDUM - 11-14-55

At 9:10, ASAC Moore advised that the Commissioner's hearing is set for 10 AM before U. S. Commissioner Harold S. Oakes. Denver is running out all leads regarding Graham, including trying to locate the [redacted] I told Moore to go ahead and send discontinued teletypes to the numerous offices working on this case. Moore said he was sticking severely to the authorized press release in answering inquiries. In accordance with discussion with Mr. Nichols, I told Moore he could let the press know when the hearing is. Attached is letter to Attorney General, cc Rogers, Tompkins and Olney.

The Bureau is in receipt of a telegram dated 11-14-55 from [REDACTED] congratulating the Director and Bureau Agents for solving the United Airlines plane crash. [REDACTED] also asks, "What kind of a savage is he?" apparently referring to the subject who caused the crash.

Bufiles contain no record of [REDACTED] and the Brooklyn telephone directory reflects four individuals by that name. It is noted that no street address was given on the incoming communication.

SAC Bill Williams of Springfield, Illinois, phoned at 6:40 pm tonight advising that Mr. C. B. Gordon of Television Station WICS, Springfield, had just contacted him advising that Gordon had been talking to USA ^{b7C} y at Denver about the above-captioned matter and on his program tonight, after discussing the airplane crash case with Kelly, Gordon wanted SAC Williams and USA Stoddard of Springfield to come on the program to discuss how the Bureau works in a major case such as that involving Graham.

Williams was told to decline and to tell Gordon he was unable to be of any help to him in this particular instance and that he would be glad on some other occasion to work out a program discussing the Bureau's activities but that he was just not able to be of any help to him tonight.

Obviously this is an attempt to draw into the Springfield area some local interest in the Bureau's solution in this important case and by implication to tie in the Springfield Office which has had no part in the solution of this matter. Williams stated he had another commitment anyway tonight and would accordingly decline.

Dear

I deeply appreciated receiving your wire of November 14, relative to the FBI's work in connection with the United Airlines plane crash on November 1, 1955.

Your thoughtfulness means a great deal to each of us in the FBI, and I sincerely trust that our efforts in the future will continue to deserve your confidence.

Sincerely yours,

J. Edgar Hoover

Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. D. J. PARSONS

b7C

DATE: 11-13-55

FROM : [REDACTED]

SUBJECT: CRUALSAB

Following telephone conversations occurred while SA [REDACTED] was on night supervisory duty, 11-13-55:

b7C

4:50 PM

ASAC MOORE, Denver, said wife of JACK GRAHAM, son of UAL passenger DAISY KING, advised GRAHAM had placed a Christmas package in his mother's luggage before she boarded instant plane. Wife says she saw and held package. GRAHAM denied.

ASAC MOORE said he is presently interviewing GRAHAM. He requested SA [REDACTED] be asked if he could state what type explosive was used in the plane, if any. Also requested [REDACTED] be advised that the little brass wheel which [REDACTED] saw and gave to SA [REDACTED] in Denver has been identified as coming from a Westclox travel alarm clock.

4:52 PM

SA [REDACTED] advised of above. He said, "No residue of the particular explosive itself has been found. Those residues which were found are consistent with those to be expected if a dynamite containing sodium nitrate had been exploded in the plane". [REDACTED] suggested clearance with Division 5 prior to relaying this info to Denver.

5:04 PM

Call placed for SA [REDACTED] who is handling this case.

5:12 PM

SA [REDACTED] called to re-word his previous statement. He said, "No trace of nitroglycerin or other high explosive has been found. Those residues which were found are consistent with those to be expected if a dynamite containing nitroglycerin and sodium nitrate, a very common type of dynamite, had been exploded in the plane".

b7C After admission was received from Graham reflecting that a time bomb had been placed in the luggage of Mrs. Daisy King, subject's mother, I talked with [redacted] in the Laboratory and ascertained that there had been recovered at the scene of the wreck remnants of a dry cell battery plus a clock wheel. I asked [redacted] whether any other items reflecting a bomb explosion had been recovered and he stated that that was all they had observed.

b7C After discussing the situation with [redacted] he felt that it would be desirable to return to Denver to re-examine the debris stored in the airplane hangar. He pointed out that since it was specifically known that a time bomb had been placed in the plane, further examination might be more fruitful.

b7C After discussing the matter with Mr. Belmont, I instructed [redacted] to catch the first available plane for Denver. He departed Washington, D. C., via United Airlines, 8:45 A.M., November 14, 1955, with arrival time 2:00 P.M., Denver.

INTERESTING FINGERPRINT IDENTIFICATIONS

PLANE CRASH NEAR LONGMONT, COLORADO

file 4
mv

Shortly after six o'clock in the evening of November 1, 1955, a United Air Lines DC 6B plane left Stapleton Field at Denver, Colorado, for Seattle, Washington. The forty-four persons aboard the luxurious airliner included five crew members and thirty-nine passengers, one of whom was an infant. About ten minutes after leaving Denver all of these people were killed instantly as the plane crashed on a sugar beet farm near Longmont, Colorado. Witnesses to the crash claimed the plane exploded, scattering bodies and parts of the plane over a two square mile area.

Almost immediately, United Air Lines officials requested the services of the Federal Bureau of Investigation to assist in identifying the victims of the crash. Since the FBI is always ready to render assistance in the identification of victims in disasters of this type, fingerprint experts were promptly sent to the crash scene.

As the bodies were recovered they were taken to Greeley, Colorado, and placed in a temporary morgue set up in the National Guard Armory. Before the arrival of the FBI fingerprint experts, nine of the bodies were identified by relatives and friends or by personal effects

and had been removed from the armory. The remaining thirty-five bodies were fingerprinted and twenty-one, or 60% of those fingerprinted, were positively identified with fingerprints contained in the vast files of the FBI.

All of the twenty-one persons thus identified had been fingerprinted for various reasons during their lifetime and their fingerprints were placed among 109,700,000 others in the noncriminal section of the FBI fingerprint files. A husband and wife, who were from Canada, were identified with fingerprints taken when they applied for U. S. naturalization in September 1954. The crew members were identified with fingerprints forwarded to the FBI by United Air Lines officials, five passengers were identified with fingerprints taken during their service in the Air Force, Army, and Navy, six had been fingerprinted by reason of employment in defense plants during World War II, two had been U. S. Government employees, and one victim was fingerprinted in 1941 and had requested that his fingerprints be placed in the FBI files for personal identification.

Among the fourteen victims printed and not identified by fingerprints, two were men and twelve were women. All of these were subsequently identified by relatives or personal effects.

b7C For record purposes, at 9:00 a.m. on the morning of November 14, 1955, [redacted] of the Bureau of Safety, Civil Aeronautics Board (CAB), called to advise he had heard on a newscast of the solution of the United Air Lines plane crash; that they were a little bit concerned and wondered if there was any information. I confirmed the story to him and told him our people in Denver were in touch with their people in Denver. He wondered if we had a substantial case. I told him this would depend on later developments which might develop during the arraignment but that there was no question as to having a substantial basis for the statement. I told him that we were making no announcement but for his confidential information, Graham had given us a confession; that this could not come out until in a judicial procedure.

Later on in the morning of the 14th, [redacted] of CAB, called to advise that Secretary Weeks had heard the announcement on the radio and was wondering what the developments were. I confirmed the story to him and told him that while the fact had not been given out and could not be made public until judicial proceedings which might be at the arraignment that Graham had confessed.

ASAC Roy K. Moore of the Denver Office called at 2⁵⁵ PM concerning the captioned matter as he had some items he thought possible Bureau interest. b7C

He said Denver Office was making some progress in connection with their efforts to locate the place where Graham bought the timer. There have been no significant developments, however, in connection with the location of his source for dynamite sticks. With reference to the timer, Moore said inquiry at the Ryal Electric Supply Company 500 Lincoln Street, Denver, disclosed that [redacted] identified the photograph of Graham as the man who placed an order for a timer in October 1955 giving the name "Jack" and a phone number at which he could be contacted when the timer arrived. The phone number was that of Graham's residence. The timer arrived on October 26th and was picked up by an individual identified by Grandy as Graham and two days later this person returned the timer, trading it for a different one. In addition to Grandy, three other employees of the Ryal Electric Supply Company identified Graham from photographs as the person who purchased the timer. b7C

Moore also stated that several inquiries had been made by relatives of the deceased passengers asking if the luggage of such passengers could be made available to them. United Airlines has been holding such baggage as of possible interest in connection with the investigation. Moore said USA Kelly had informed United Airlines today that as far as the Government was concerned, the baggage could be released to relatives.

Moore mentioned that the Rocky Mountain News for this morning carried considerable detailed information concerning this case and included in the material were some statements that Moore thought might have come from the signed statement taken from Graham. Moore said he mentioned this to the United States Attorney who denied that any information had been made available from the statement. Moore advised that the Denver Office has released no information other than that previously authorized by the Bureau and that the Rocky Mountain News article closes with the comment that Moore and Burke declined to discuss the case in detail and refused to confirm or deny that a signed statement had been taken from Graham.

Mr. Sizoo to Mr. Belmont

Moore further advised that USA Kelly had discussed this case with Warren Olney of the Department yesterday and Kelly advised that the defendant would be turned over to the Denver City and Denver County authorities for prosecution in state court and -that USA Kelly had so advised Bert Keating, local district attorney. After receiving this information from Kelly, Keating called Moore and discussed the case briefly asking, among other things, for the names of some of the key Agents in this case. Moore gave him his own name and that of Special Agents [redacted] and [redacted] of the Denver Office who investigated the case and [redacted] of the Laboratory. He advised that no request, however, was made for any evidence which the Bureau might have in this case, but Moore said he expected to receive such a request shortly. He was advised that in the event a request for evidence is received, the Bureau be contacted in order that the matter of releasing any evidence to local authorities can be cleared with the Department.

After the Director's telegram of 11/15/55, was dispatched to District Attorney Bert M. Keating of Denver, I called ASAC Moore and furnished him with the contents of the telegram and told Moore that it was the Director's desire that he personally contact Keating before the day was over and advise he was doing so on the instructions of the Director to implement the message which the Director had dispatched to Keating offering the investigative and scientific facilities of the FBI in the Graham case.

b7C

I told Moore that we would handle the Graham case exactly like we would if Keating were a United States Attorney. In other words, we will make the investigation needed but, of course, will not detach a detail of men to Keating's Office. I further told Moore that physical evidence in our possession should be carefully catalogued and turned over promptly to Keating along with the original of Graham's confession unless Keating directed that we retain it for the purpose of admission at a later date. I further told Moore that we had much to be proud of in the investigation to date; that we wanted to keep on top of it and see that the ends of justice are completely met. Moore was most enthusiastic over cooperating with Keating and stated that he thought it was very much worthwhile.

CRUALSAB. Re NY tel 11/12/55.

b7C [redacted] advised on 11/12/55 he is employed in Development Division of the Manufacturing Dept. of American Can Co., 100 Park Ave., NYC. Boarded instant plane at La Guardia Airport on business trip for company, destination being a meeting at Rock Island Arsenal. Left plane at Chicago and took UAL Flight 243 to Davenport. Had one suitcase and one briefcase, both checked on ticket. Suitcase contained clothes. Briefcase contained papers. Had no planned or unplanned stopovers. No baggage forwarded beyond Chicago.

Advised he was seated on right side of plane in aisle seat just behind coat lockers. A doctor (Ph.D.) who was former prisoner of war in Philippines and who is connected with Methodist Church and who resides in Manhattan, had window seat. Spent entire trip from NY to Chicago conversing with him. Does not recall doctor's name or destination. Described flight as quiet, nothing unusual, did not hear any excessive motor noises, observed nothing suspicious prior to or while in flight. Advised until interviewed was not cognizant that instant plane was the one he had traveled on from NY to Chicago. Unable to furnish any additional info.

The United Press Ticker carried a story, a copy of which is attached, that today District Attorney Bert Keating at Denver filed charges against Graham. Keating was active in the National Association of Prosecuting Attorneys at the time when we needed friends and he was most cooperative. We have had excellent relations with him. Regardless of what happens, the investigation is still the Bureau's and it is to the Bureau's interest to see to it that nothing happens to the evidence or to subsequent investigations that may be necessary.

b7C

I would like to suggest that the Director send the attached telegram to Keating assuring him of our complete support and that in this case, since we started the investigation, he can be assured of the full investigative facilities of the Bureau in building up his case and to that end, we are instructing the Special Agent in Charge at Denver to contact him immediately. Keating is still an effective force in the National Association of Prosecuting Attorneys and even though this case is being prosecuted in state court, it is still our case and I can see no possible way whereby anybody could raise a question.

If you approve, a telegram is attached.

(CRASH)

DENVER--THE STATE CHARGED JOHN GILBERT GRAHAM WITH THE MURDER-FO-INSURANCE OF HIS DOTTING MOTHER IN A BOMB PLOT THAT CAUSED AN AIRLINER TO CRASH, KILLING HER AND 43 OTHER PERSONS.

DISTRICT ATTORNEY BERT KEATING, FILED THE CHARGES AGAINST GRAHAM, 23, WITHIN A FEW HOURS AFTER THE FEDERAL GOVERNMENT HAD TURNED OVER THE CASE TO HIM.

KEATING SAID HE WOULD SEEK TO SEND THE HANDSOME CONFESSED SABOTEUR TO THE GAS CHAMBER IN THE CANON CITY STATE PRISON.

KEATING HAD ANNOUNCED EARLIER HE WOULD CHARGE GRHAM INITIALLY ONLY FOR THE DEATH OF HIS MOTHER BECAUSE SHE WAS THE "PRIMARY VICTIM," BECAUSE BOTH RESIDED IN DENVER, AND BECAUSE IT WAS WITHIN THAT JURISDICTION THAT THE PLOT WAS HATCHED. HOWEVER, HE SAID GRAHAM ALSO COULD BE TRIED FOR EACH OF THE 44 DEATHS.

U.S. ATTORNEY DONALD E. KELLEY SAID THAT THE GOVERNMENT, IN RELINQUISHING GRAHAM TO STATE CUSTODY FOR TRIAL ON "THE MORE SERIOUS CHARGES," WOULD TRY HIM ON A TECHNICAL CHARGE OF SABOTAGING A NATIONAL DEFENSE UTILITY--THE PLANE--IF HE WERE ACQUITTED OF MURDER.

KELLEY CONFERRED WITH ASSISTANT ATTORNEY GENERAL WARREN OLNEY III BEFORE ANNOUNCING THE GOVERNMENT'S DECISION TO TURN GRAHAM OVER TO THE STATE. HE SAID THERE WAS NO FEDERAL STATUTE APPLICABLE UNDER WHICH GRAHAM COULD BE TRIED FOR MURDER IN THE FEDERAL COURTS.

EITHER OF TWO COLORADO JUDICIAL DISTRICTS, IN DENVER AND IN WELD COUNTY, COLO., WHERE THE PLANE CRASHED, COULD HAVE PROSECUTED GRAHAM FOR MURDER.

BUT KELLEY SAID HE CONSIDERED IT "IN THE BEST INTERESTS OF JUSTICE" TO HAVE THE CHARGES BROUGHT IN DENVER. HE SAID THE LATTER COURT WOULD BE MORE AVAILABLE TO THE CHIEF WITNESSES SUCH AS AGENTS OF THE FBI AND EMPLOYEES AND OFFICIALS OF UNITED AIR LINES.

KEATING SAID HE PERSONALLY WOULD HANDLE THE PROSECUTION OF GRAHAM, AND IMMEDIATELY ASSIGNED A STAFF OF INVESTIGATORS TO BEGIN ASSEMBLING POTENTIAL WITNESSES.

**JACK GILBERT GRAHAM
SABOTAGE.**ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

DATE 2/19/00 BY 6030mc/act/mth

ReButel November 14, 1955.

Coast Guard records reflect one Jack Gilbert Graham, serial number 279177, enlisted for 4 years as seaman recruit, April 14, 1948, Seattle, Washington, and transferred Coast Guard Base, Seattle. During routine interview, April 27, 1948, Graham stated that "he is very interested in engines of all types and had experience in overhauling them. Also worked in radio shops." Same date transferred [redacted] b7C

[redacted] Transferred August 23, 1948, Coast Guard Training Station, Groton, Connecticut.

AWOL from September 21, 1948, to November 2, 1948. Tried before Summary Court-martial November 18, 1948, and pleaded guilty. Sentenced to forfeit \$30 pay per month for 4 months, to perform extra duties totaling 60 hours, and to be dishonorably discharged. In accordance with recommendation of Commandant, the Acting Secretary of the Treasury on December 10, 1948, approved proceedings, finding, and sentence, but mitigated that part of sentence imposing Dishonorable Discharge subject to probationary period of 6 months; further, he reduced loss of pay to \$15 per month for period of 4 months.

Admitted December 1, 1948, to United States Marine Hospital, Ellis Island, New York, for inpatient medical treatment. Medical Survey Report dated December 15, 1948, United States Marine Hospital, Ellis Island, New York, signed by V. T. Davis, Sr. Surg., United States Public Health Service, USN; L. P. Paul, Asst. Surg. (R), USPHS, USN; and Theodore G. Braunman, Asst. Surg. (R), USPHS, USN. Diagnosis, no disease, temperamentally unsuited for service.

"Summary of case history: The above-named is an 18-year-old single white Coast Guardsman, referred to this hospital for neuropsychiatric evaluation from the U. S. Coast Guard Training Station at Groton, Connecticut, where he had been placed on brig status following a period of 43 days AWOL. Patient states at this time: 'I just took no notion I'd get out of the service by going AWOL. I was fed up with saying Yes, sir, No, sir, and getting punished

for things that didn't seem to be very important. I had \$200 and I went to New York, Chicago, Georgia, Washington, D. C. I was hitch-hiking. I had a lot of fun drinking, dancing, going to parties. I don't feel sorry about it but I'm not happy about it; it's just one of those things, but I don't want a bad conduct discharge.'

"Patient was born Jan. 23, 1930 in Denver, Colorado. Patient's father died when he was 3 years old, following which he was reared by his grandmother, as his mother went to work. He stayed with his grandmother until the age of 6, following which he was placed in a school for boys, which was extremely distasteful and occasioned his running away on numerous occasions in order to attempt to return home to see his mother. When patient was 11 years old his mother remarried and he returned to live with his mother and stepfather. He states he did well following this and enjoyed having a home again. He went as far as the first year in high school, at which time he was 15 years of age, following which he went to work on his stepfather's ranch, which work he states he enjoyed very much. Four months prior to joining the service he was on his way to Seattle to visit his stepfather but instead decided to get a job in Seattle, doing longshoreman's work. He got into an argument with the foreman there and on an impulse and apparently as an attempt to assert his independence he decided to join the Coast Guard. He was stationed for his first 6 months in Seattle, stating that he did not get into much difficulty there, and after that was sent to the U. S. Coast Guard Training Station, Groton, Connecticut, where his adjustment was apparently very poor and where he was guilty of numerous minor infractions, ultimately leading, after 4 weeks in Groton, to his going AWOL for 43 days.

"At this time patient wishes to leave the service and return home. However, as might be anticipated, his plans are very vague and don't exhibit careful thinking. He has some tentative ideas of becoming an airplane pilot.

"Past surgical and medical history is essentially non-contributory.

"Patient states, in regard to his future, 'If I stay in the Coast Guard and don't get leave I'll go over the hill again to see my mother.'

AIRTEL

To: COMMUNICATIONS SECTION.

Transmit the following message to SAC, DENVER

"As is somewhat evident from the facts in the patient's background, this man is an exceedingly immature individual who has exhibited poor judgement and who tends to act on impulses. That he will make any better adjustment to service life than he has up to now is exceedingly questionable because of his immaturity and poor judgement. He is a dependent person, with strong ties to mother. He tolerates frustrations, even those in the normal course of work, very poorly. Other evidences of his poor judgement and impulsive behavior are to be seen in some of the infractions he has committed in his service life; namely, sleeping on watch, stealing food while on watch, and returning to work drunk. He states, 'I just haven't gotten along. Things seem to be innocent and 20 minutes later I'd be put down for it.'

"Patient has been informed of the findings of the board and does not desire to submit a statement in rebuttal.

"Recommendation: That patient be discharged from U. S. Coast Guard as temperamentally unsuited for service."

Memorandum dated January 6, 1949, from Commandant to Commander, 3rd Coast Guard District, states that in view of Medical Survey Report dated December 15, 1948, and recommendation thereon, Graham should be issued General Discharge by reason of unsuitability. Graham issued General Discharge under honorable conditions (unsuitability) January 26, 1949, New York City, as seaman apprentice.

Additional information reflected in Graham's Coast Guard record set out below:

At 3:30 P.M., November 15, 1955.

[redacted] telephonically contacted

the Bureau and was referred to [redacted] said that he has been reading newspaper accounts of the crash of the United Airlines plane near Denver and the arrest and confession of Jack Gilbert Graham. He said that the "Daily News" of November 15, 1955, stated that, according to the president of United Airlines, the plane which crashed was 35 minutes late leaving Denver. [redacted] said that if it had left on time, the explosion might have taken place somewhere near Medicine Bow Peak, Wyoming, where another United Airlines plane crashed several weeks ago. [redacted] said that the thought occurred to him that possibly Graham might have placed a bomb on the plane which crashed near Medicine Bow Peak several weeks ago and suggested that the Bureau might want to look into this possibility. [redacted] was thanked for his interest in furnishing his observation to Bureau.

The crash of a United Airlines plane at Medicine Bow Peak, Wyoming, occurred in early October and all 66 occupants of the plane were killed. The Civil Aeronautics Board is presently conducting an official inquiry into this crash, and the Bureau has maintained liaison with the Board but has received no indication that sabotage was involved. From the facts available, it appears that the pilot was off course and flew into the side of a mountain.

ACTION:

Although [redacted] stated that the above is merely an observation, it is recommended that his comments be furnished to the Civil Aeronautics Board through Liaison. If you approve, this memorandum should be routed to the Liaison Section for handling.

You advised me this morning that [redacted] of Civil Aeronautics, was coming to see the Director to discuss possibilities of preventing bombs being put aboard commercial airlines in baggage of passengers such as was done in the United Airlines crash November 1. [redacted] b7C

Confirming our conversation, I believe that there is [redacted] ment or technical means which would afford the certainty of actually opening and inspecting baggage. Permission to open at least suspicious packages could be condition to the purchase of an airline ticket. [redacted] b7C

The best technical means would be X-ray equipment using a fluoroscope which would permit an instant image of the interior of the parcel on a fluroscope screen. With relatively little experience, a competent employee would be able to identify the usual articles and would probably be able to identify a bomb such as one consisting of sticks of dynamite, batteries, and clock mechanism. It would be possible to shield the bomb in a sheet metal container to avoid detection by a fluoroscope. Portable fluoroscopes cost in the neighborhood of \$1,500 to \$2,000. For a larger operation such as would be encountered at a major air terminal, there is X-ray equipment available utilizing a traveling conveyor belt and fluoroscope screens. These are used industrially in factories to permit rapid inspection of many products such as inspecting cereal boxes to prevent foreign objects being contained in the packages for sale. These industrial units would probably cost \$10,000 to \$20,000 or even more if a large capacity operation was set up.

No other technical means approaches the certainty of the X-ray. Stethoscope or sound amplifying devices might be used to detect a ticking clock which might be used as the timing device for the bomb. Disadvantages of this would include the fact that bombs could be exploded with time devices not requiring a ticking clock and the fact that many passengers would probably have traveling clocks or watches in their luggage.

This confirms the information that you telephonically furnished the Director

ACTION: None, for information.

CRASH OF UNITED AIRLINES DC-6B
FLIGHT 629
LONGMONT, COLORADO
NOVEMBER 1, 1955
SABOTAGE

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/19/87 BY SP5
10 295125

Reference is made to my memorandum dated November 8, 1955, advising that the FBI was entering the investigation of the crash of a United Airlines DC-6B at Longmont, Colorado, on November 1, 1955, and to my memorandum dated November 14, 1955, advising that Jack Gilbert Graham had been arrested for causing the explosion which wrecked this plane in order to collect insurance on his mother.

The Civil Aeronautics Board has the responsibility of determining the cause of an accident to a commercial aircraft. Pursuant to an agreement with that Board the FBI is advised promptly when there is any indication of sabotage in the crash of a commercial aircraft.

Section 2151 of Title 18, United States Code, defines an aircraft whereon or whereby "national-defense material" or any troops of the United States are being or may be transported as a "national-defense utility." Section 2155 of Title 18, United States Code, prohibits the willful injuring or destruction of "national-defense utilities" with intent to injure, interfere with, or obstruct the national defense of the United States.

COMM - FBI

NOV 15 1955

MAILED 28

In this and similar cases the intent of the individual responsible is generally unknown until the case has been solved and the individual responsible identified. In this case the Civil Aeronautics Board advised us that the crash was caused by an explosion and requested that we enter the investigation as a possible violation of the sabotage statutes was involved.

UNRECORDED COPY FILED IN

Memorandum for the Attorney General

Our investigation resulted in a confession from Graham that he was responsible for the explosion that caused this crash. It was not known whether his motive might be construed as sabotage until his confession was obtained. At that time the matter was immediately presented to the United States Attorney.

We are submitting these facts to you for future guidance, since it is understood some question has arisen as to investigative jurisdiction in such matters. We would appreciate your views as to whether investigation should be undertaken in similar situations in the future.

SUBJECT:

JOHN GILBERT GRAHAM
SABOTAGE
UNITED AIRLINES, 11/1/55

b7C Lou Carroll, the news editor of the New York Herald-Tribune, called to advise me that [] had just contacted him and told him that he wanted the New York Herald-Tribune and Herald-Tribune Syndicate to do an all-out job on the work of the Bureau in the United Airlines case.

b7C Carroll stated that he and [] in a discussion on this, felt that this case was one of the most dramatic things that has happened and would do more to put the FBI in its proper light than most any other story that has occurred in the past 20 years. Both of them felt that this story is much more dramatic than even the Dillinger case; that what they would like to do is to concentrate on the FBI as an institution, how it works as a team, the hundreds of leads that were run out, the painstaking attention to detail and how the FBI tracked down the case. Carroll stated that both [] and he thought that this was one of the greatest opportunities which has come along to do the job that needs to be done to undercut some of the left-wing crowd that have been trying to hamstring the Bureau over the years.

b7C I told Carroll that as of this moment there was simply nothing more that we could say; that some additional details might develop during the arraignment; that we deeply appreciate the interest which he and [] had in doing a job and that early this afternoon we would be in a better position to tell them whether there was anything else that we could develop and make public which would give them the opportunity they need.

In the meantime, I think we should keep an open mind on this and see what we can develop as it could be handled on any terms that we desired to set.

SUBJECT: CRASH - UNITED AIRLINES DC-6
 FLIGHT 629 - LONGMONT, COLORADO,
 November 1, 1955

crash/sab

Reference is made to the attached memorandum to Mr. Tolson dated 11-4-55 which indicated that there was convincing evidence to indicate there had been a violent explosion aboard this plane immediately prior to the crash which had not been brought about by any function of the plane or its mechanism. The Denver Office by teletype which was received at the Bureau on 11-5-55 furnished the following information regarding the possibility of sabotage in connection with this crash.

1) At this time no information has been received which would indicate that a bomb or any other type explosive had been placed on the plane by a person or persons for the purpose of wrecking the plane.

2) Previous information had been received to the effect that a 45-pound suitcase had been put aboard the plane at Denver. This suitcase was addressed from [redacted] in New York to [redacted] in Seattle. The addresses were alleged to be fictitious. The Denver Office has now advised that this 45-pound package was located in the wreckage and turned out to be a duffel bag containing inexpensive wearing apparel and other personal articles.

3) More recent information concerning the explosion itself indicates that the explosive force was directly upward from the rear luggage and baggage compartment of the plane. Very small fragments of material were forced through the top and sides of the plane's aluminum covering. The force of the explosion can be determined in some measure by the fact that bits of plane wreckage from one inch in size to huge pieces were strewn over an area of better than two mile in length and one mile in width.

 DATE 2/19/04 BY 60322/UC/STP/STP

Memorandum for Mr. Boardman

Well organized crews are conducting a systematic crime scene search of this entire area. All plane parts and other articles regardless of size which are found are being labeled and delivered to the United Airlines warehouse at Denver where they are being placed on the floor in the same relative position at which they are located at the scene of the crash.

4) Previous information received indicating that some wooden boxes containing highly volatile material had been shipped on this plane by a national concern has been checked out. It was determined that the shipment in question involving the two plywood boxes had been shipped by the Goodrich Rubber Company, Akron, Ohio, to the Western Airlines at Seattle, Washington. These boxes contained plastic adhesive. SA

b7C

[redacted] of the Bureau Laboratory advised that the only explosive material contained in plastic adhesive is a thinner which in his opinion could not have caused the type of explosion.

5) With respect to the strike of the Flight Engineers International Association - AFL at Denver, the Denver Office has advised that the strike started 10-23-55. The striking flight engineers have been picketing the United Airlines airport but no acts of violence have occurred in this connection. Pilots and co-pilots flying as flight engineers are operating the United Airlines planes. No information has been received which would indicate that the striking flight engineers committed any act which would have caused this crash. However, Union officials were quoted in local Denver papers as stating the Union was set back 20 years when the United Airlines Company hired detectives from the Burns Agency to guard their property.

b7C

[redacted] of Flight Engineers International Association, is reportedly planning to meet in Washington, D. C., with AFL officials to find out why pilots are allowed to fly as flight engineers. This is, of course, considered as scabbing on part of pilots.

Memorandum for Mr. Boardman

6) The Denver office has advised that there are no known factors at this time which would bring this crash within the Bureau's investigative jurisdiction. Denver pointed out there is no evidence to indicate sabotage at this point and recommended against initiating an investigation at this time.

OBSERVATIONS:

b7C From the facts developed to date we know that this crash was brought about by an explosion which originated in the rear of the plane. It would appear that this explosion was not brought about through any faulty mechanism of the airplane itself. It has not yet been determined whether it could have been caused by explosive material being legitimately shipped on the plane. In considering all information in our possession there is no evidence at this time to the effect that any person or persons placed explosives aboard the plane for the purpose of bringing about the crash. In view of the fact there is no evidence of deliberate sabotage at this point it is felt that we should not initiate an investigation into this plane crash. It is felt that SA [redacted] of the FBI Laboratory should remain at the scene until all pieces of the wreckage and baggage have been located in order that he may make whatever examination is necessary in his capacity as a Laboratory Examiner assisting the Civil Aeronautics Board to determine the cause of the accident.

RECOMMENDATIONS:

If you agree the following instructions will be issued to the Denver Office:

- 1) No investigation is to be made at this time.

Memorandum for Mr. Boardman

2) SA [] will remain at Denver assisting CAB to determine the cause of the accident until all parts of the plane and baggage have been located and examined.

b7C

3) Denver Office through liaison with CAB and United Airlines will determine as soon as possible when all baggage and cargo aboard the plane have been checked out in order to determine whether the plane was carrying any explosive material.

4) The Denver Office will continue to stay on top of this situation and keep the Bureau promptly advised on all significant developments.

ADDENDUM

4 P. M. (11-5 - Sizoo)

I called SAC Burke concerning this case and inquired if any request for FBI investigation had been received from the Civil Aeronautics Board. He said no such request had been received. He also asked if the cargo aboard the plane had been checked out. He stated this had not yet been completed, that United Airlines and CAB are still working on it and for assistance UAL has requested all shippers to duplicate their shipments. Burke was accordingly advised in accordance with the above recommendations that no Bureau investigation should be instituted at this time; that [] should continue to assist CAB in his capacity as a Laboratory examiner; that Denver should follow developments closely with CAB and UAL and keep the Bureau advised.

SUBJECT: CRASH - UNITED AIRLINER DC-6
FLIGHT 629 - LONGMONT, COLORADO,
November 1, 1955

I talked to SAC Burke at Denver, Colorado, who advised me that based on what our Laboratory man has found, there is most convincing evidence that there was a violent explosion aboard this plane immediately prior to the crash not caused by any function of the plane or its mechanism. He mentioned several individual items concerning the manner in which the tail was separated from the plane by forces toward the rear, the manner in which rivets were pulled through holes of the plane construction rather than tearing the rivet holes, all of which are consistent with the description of several witnesses who reported the flash of flame while the plane was still in the air.

SAC Burke said that the United Airlines employee who was experienced in the investigation of crashes and with whom our Laboratory man, SA [] has previously worked on plane crashes had independently come to the conclusion that such an explosion had occurred and pointed to some of the same evidence that our man had found. This United Airlines man, of course, knows nothing of our findings, and I told SAC Burke to make sure that no report is given to anyone at this time, that if he is pressed, he should tell them that we won't know until [] returns to the Laboratory and completes the work here.

SAC Burke says that United Airlines has established that a 45-pound suitcase was aboard the plane addressed from Jack Murray in New York to Jack Murray in Seattle and that these are fictitious addresses. The suitcase was put aboard the plane at Denver.

SAC Burke said he did not know where the so-called expert, Wilson, head of the Wisconsin Crime Laboratory, who had been employed by the United Airlines, was, that he certainly had been kept out of our way and may not even be around.

In view of the above findings which appear to support the Bureau entering the investigation, I transferred SAC Burke to Mr. Belmont's office, and Denver is submitting a teletype summary in order that further consideration can be given to entering the case.

ACTION: For information and further recommendation will be submitted by the Domestic Intelligence Division.

NOTE: [Redacted] undoubtedly refers to the United Air Lines plane
crash at Longmont, Colorado, on 11-1-55. The Bureau entered
the investigation on 11-8 and on 11-14 Jack Gilbert Graham was
arrested. Graham admitted dynamiting the plane to collect the
insurance on his mother who was a passenger. Our Denver Office
notified United Air Lines in Denver that Graham had been arrested.

Reference books in Bureau Library give several addresses for United Air Lines;
however, since the telegram is from New York, it is deemed advisable to write

[REDACTED] telephone Capital [REDACTED] called in regard to the mass murder by sabotage on the part of John Gilbert Graham. Reed stated that he was "mad about it" and thought that Graham should receive the death penalty for his hideous crime rather than ten years as the newspapers state he will receive.

[REDACTED] desired to know the results of the FBI's investigation as to just why Graham had done such a thing.

[REDACTED] was told that the results of any investigation conducted by the FBI were confidential. [REDACTED] attention was also invited to the fact that according to newspapers the State of Colorado is planning to file a murder charge against Graham, and is considering other charges.

[REDACTED] was told that the ten-year penalty that he was referring to was apparently a statement of what Graham would receive under the Federal sabotage statute. [REDACTED] was told his interest in this matter was appreciated.

This is for your information.

SUBJECT: CRASH - UNITED AIRLINER DC-6,
Flight 629 - Longmont, Colorado, November 1, 1955.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2/17/04 BY 60290 ruc/BAU/ha

(Crash/sab)

[redacted] (UAL), came to my office this afternoon and advised the purpose of his visit was merely to acquaint the seat of government of the FBI with instant air crash, and the fact that the plane had, for an as yet unknown reason, disintegrated midair, without any prior indications from the pilot that he was encountering trouble. [redacted] advised that UAL presently has its flight engineers out on strike. He stated that UAL understands the FBI's jurisdiction thoroughly, and has always had such excellent cooperation from the FBI that [redacted] the [redacted] of UAL was merely desirous of having this situation called to our attention. [redacted] stated that the Vice President in Charge of UAL at Denver has been in continuous contact with the Civil Aeronautics Board (CAB) authorities and with the SAC of our Denver office.

I pointed out to [redacted] that Mr. Quinn Tamm, with whom [redacted] stated he is acquainted, has already departed for Denver, for personal identification purposes, and a representative from our Laboratory was also en route for the purpose of determining whether there is any indication of the reason for the explosion. I pointed out that the CAB representatives had thus far furnished no indications of sabotage, but that we were keeping in very close contact with the situation and would conduct an immediate investigation should indications of sabotage arise.

[redacted] was very pleased with our alertness in this matter and commented that, as usual, the FBI was always a couple of jumps ahead of them. He stated that he could reassure [redacted] of UAL, that the FBI was following the matter very closely.

[redacted] understands that, though we are not conducting a sabotage investigation, we are closely following the matter with the view to making such an investigation should circumstances reflect a violation within our jurisdiction.

RECORDED-61

INDEXED-61

LVB:CSH (4)

98-43035-1

NOV 3 1955

Memorandum for the Director

I also pointed out to [] that, of course, the FBI^{b7C} has no interest in employer-employee disputes, and he stated he was well aware of this. He commented that the only indication of a suspicious nature which has yet come to their attention has been a comment from their Denver office to the effect that partially burned recovered mail from the plane had a suspicious odor of gunpowder. He stated this information, according to the Denver office of UAL, has already been brought to the attention of the CAB representatives and our Denver office.

I suggested to [] that he be certain to keep us^{b7C} immediately advised of any information coming to their attention reflecting possible acts of sabotage. [] assured me that this would be done.

I verified the fact that Messrs. Quinn Tamm and []
[] (Physics and Chemistry Section) of the Laboratory^{b7C} had departed via the 1:30 p.m. UAL flight (which through delayed departure actually left at 2:30 p.m.), for Denver. This airplane crash will be closely followed to be certain that we fulfill our jurisdictional obligations.

Jack Gilbert Graham Summary

Bureau indices have been checked to determine if we conducted any prior investigation concerning the subject of this case. The indices were checked under the names of Graham and King with the first names Jack and John. No subversive references were located. Bufile 62-77185, Serial 48, reflects a reference to the subject in connection with the checks which he forged in Colorado in 1951. This was a state matter. Bufile 26-151835 captioned "Jack Gilbert King, Interstate Transportation of Stolen Motor Vehicle, Selective Service Act, 1948," reflects investigation conducted by the Dallas Office with regard to an individual who is possibly identical with the subject. The subject was at that time under arrest at Lubbock, Texas, for illegal possession of liquor and illegal possession of a firearm. The Bureau checked to see if the car was stolen and found out that it was not. His Selective Service record was also checked through the files of local board number 1, Anchorage. The only matter of interest noted in this record was that his Selective Service questionnaire reflected that he was at one time confined in a mental ward of Ellis Island Marine Hospital, New York, while in the Coast Guard.

It should be noted that a check of Coast Guard records has been made by the Identification Division and it was determined that the subject was given a medical survey in 1948 and was diagnosed as having no disease but temperamentally unsuited for service and he was discharged for unsuitability on 1-26-49. His Coast Guard record has been furnished to Denver.

ACTION:

b7C

If you approve the attached memorandum will be sent to Denver enclosing one copy of the report of SA , 9-26-51, at Dallas, Texas, which reflects all the information in Bufiles concerning the subject.

I talked to SAC Burke at Denver, Colorado, this afternoon and checked on the status of technical work that Laboratory Agent [redacted] has been doing in Denver. The technical work that he went to Denver to do has been completed. If he remained in Denver, he would go over other fragments of the wreckage to which task other Agents are also assigned. The more important items have already been collected and, of course, a substantial volume was sent back to the Laboratory here.

Since there is little that he can accomplish in Denver and he has a great deal of work to do here in assisting with the examination of the wreckage fragments which we have, I feel that it would be far more productive and expedite the completion of the report to have him return to Washington.

I told SAC Burke to have [redacted] return to Washington tomorrow in order that we could expedite the completion of this case.

ACTION:

None, for information.

SUBJECT: UNITED AIRLINES CRASH
NEAR LONGMONT, COLORADO
November 1, 1955

b7C

SYNOPSIS

Identifications effected as a result of fingerprints amounted to 21 out of 35 bodies from which fingerprints were obtained. 60% identification by fingerprints. 14 bodies fingerprinted not identified by fingerprints. 9 bodies identified previously by personal effects. United Airlines officials extremely outspoken in their praise of the Bureau's cooperation in these matters. List of persons identified by fingerprints attached for record purposes.

RECOMMENDATION

That Fingerprint Examiners [redacted] and [redacted] and Special Agent [redacted] and Assistant Special Agent in Charge [redacted] be commended by letter for the extremely competent job which they did. It is noted that [redacted] who is a fingerprint instructor in the field, had proceeded to the morgue and had fingerprinted 13 bodies by the time identification team arrived from Washington. He did a very competent job. [redacted] and [redacted] performed in their usual competent manner in effecting identifications. [redacted] again served as [redacted]

DETAILS

I wish to advise that identification of the bodies in the above-named plane crash has been completed. There were 44 people on the plane including one small child. The writer accompanied by Fingerprint Examiners [redacted] ASAC [redacted] and SA [redacted] arrived at the morgue in Greeley, Colorado, at 7:30 P. M., November 2. All of the bodies from the accident were at the morgue at the time of our arrival with the exception of 9 bodies which had been identified by relatives and friends or by personal effects and had been removed.

NOV 25 1955

PERS. FILES

Memorandum for Mr. Tolson

The night of November 2 and the morning of November 3 were spent in fingerprinting the remaining bodies so that the finger impressions would be available for comparisons upon the arrival of fingerprints cards which were being transmitted from the Identification Division. In this particular case we departed from Washington prior to the time the passenger list had been searched and the fingerprint cards were forwarded to us.

The day of November 3 was spent making fingerprint comparisons after the receipt of the fingerprint cards. 21 identifications were effected as a result of these comparisons. There was a high percentage of women on the plane, 19 in all, and obviously we do not have as many fingerprints on females as we do males. Consequently, the percentage of identification was not as high as it was in the Laramie, Wyoming, crash. However, 60% identification on bodies fingerprinted is still an extremely high percentage in this type of accident.

The bodies in this particular case were not badly mutilated as far as facial features were concerned. This plane evidently disintegrated or exploded in the air and the bodies fell free hitting the ground, most of them on their backs, so that the hands and fingers were still intact, and in some cases identifications could be effected by facial features. The identifications were effected quickly and efficiently and brought many comments of commendation from the United Airlines officials who were extremely grateful for the assistance rendered by the Bureau.

Reference is made to my memorandum to the
Attorney General dated November 16, 1955, with copies
to you.

We have been advised that United States
Attorney Donald E. Kelley, Denver, Colorado, after
discussing this case with you, has announced that
Graham will be prosecuted for murder by District Attorney
Bert Keating, Denver, Colorado.

In accordance with this decision, our Denver
Office has been instructed to fully inform Mr. Keating
of information developed in this case and to turn over to
him the physical evidence which has been obtained. We
will not furnish Mr. Keating with copies of FBI reports
but will furnish pertinent information and list of witnesses
together with a statement of their expected testimony in
a summary memorandum. There will be included the names
of any witnesses developed during our investigation
who are favorable to the subject of this case together
with whatever information they may have in his favor.

We will maintain accurate descriptions of
all physical evidence furnished to Mr. Keating and
will obtain from him appropriate receipts. We will also
confirm in writing to Mr. Keating the physical evidence
which has been furnished to him.

Our investigation is continuing, and Mr. Keating
will be given the benefit of any additional pertinent
information or physical evidence developed in the future.
Copies of all investigative reports furnished by our
Denver Office will be made available to the Department
upon receipt at the Bureau.

2cc - Assistant Attorney General
William F. Tompkins

CRUALSAB. REFERENCE IS MADE TO TELEPHONE CALL FROM INSP

[REDACTED] RE NEWSPAPER ARTICLE IN ROCKY MOUNTAIN NEWS THIS DATE
WHEREIN BUREAU WAS PREVIOUSLY INFORMED THAT THE CONTENTS GAVE
EVIDENCE OF HAVING MATERIAL INCLUDED IN THE SIGNED STATEMENT
TAKEN FROM SUBJECT JOHN GILBERT GRAHAM. AS IT WAS EXPLAINED
TO [REDACTED] IN ACCORDANCE WITH BUREAU INSTRUCTIONS, THE
ORIGINAL OF THE SIGNED STATEMENT WAS DELIVERED TO USA DONALD
E. KELLEY JUST PRIOR TO THE U. S. COMMISSIONERS HEARING AT
TEN A. M., NOVEMBER FOURTEEN INSTANT. IT HAS BEEN ASCERTAINED
IT OR A COPY THEREOF HAS BEEN IN HIS POSSESSION CONTINUOUSLY
SINCE. IT WAS LEARNED THAT SUBSEQUENT TO THE U. S.

b7C

COMMISSIONERS HEARING, USA KELLEY HAD CONFERRED WITH DISTRICT
ATTORNEY BERT KEATING AND DISTRICT ATTORNEY M. E. H. ~~PARER~~
(MARK) ~~PARER~~ SMITH, WELD COUNTY, DURING WHICH TIME THE SIGNED
STATEMENT WAS READ ALOUD. WITHOUT CONDUCTING INVESTIGATION
IT WOULD BE IMPOSSIBLE TO STATE THAT SOMEONE COULD HAVE
OVERHEARD THE STATEMENT BEING READ THROUGH THE CORRIDOR DOOR
OR ADJOINING ROOM. AS THE BUREAU WAS ADVISED USA KELLEY WAS
ASKED IF HE MADE THE STATEMENT AVAILABLE TO THE PRESS

END PAGE ONE-60-

Mr. Belmont

RECORDED-60

PAGE TWO----

AND HE STATED THAT HE DID NOT. USA KELLEY THEREAFTER WAS ASKED IF HE FELT ANY STATEMENT CONTAINED IN THE NEWSPAPER ARTICLE BY REPORTER DAVE STOHLBERG CONTAINED INFORMATION THAT WOULD BE PREJUDICIAL TO THE PROSECUTION OF THE FORTHCOMING TRIAL AND HE STATED IN HIS OPINION THAT IT DID NOT. IT IS NOW BELIEVED THAT THE POTENTIAL OF A LEAK THROUGH SOURCES OTHER THAN THE OFFICE OF THE USA WOULD BE SO GREAT AS TO MAKE IT IMPOSSIBLE TO PINPOINT THAT SOURCE. STOHLBERG WAS ASKED SPECIFICALLY WHERE HE RECEIVED THE INFORMATION CONTAINED IN HIS ARTICLE. HE DECLINED TO ANSWER, STATING HE GATHERED IT FROM ~~QUOTE~~ "VARIOUS SOURCES" ~~UNQUOTE~~. THERE APPEARED IN THE DENVER POST, HOME EDITION, THIS AFTERNOON AN ARTICLE CAPTIONED ~~QUOTE~~ "FINGERMAN GAVE FBI CRASH TIP" ~~UNQUOTE~~. THE ARTICLE STATED THAT ONE LUCIUS R. MESSERVY OF TWO ONE NAUGHT FIVE AMES STREET, EDGEWATER, A FORMER PATATO CHIP SALESMAN WHOSE CUSTOMERS INCLUDED GRAHAM AND MRS. DAISIE KING, A VICTIM IN THE SABOTAGED PLANE, REVEALED HIS ~~QUOTE~~ "STRONG SUSPICION" ~~UNQUOTE~~ OF GRAHAM TO SEVERAL FBI

END PAGE TWO--

PAGE THREE---

AGENTS IN A SECRET MEETING LAST TUESDAY NOVEMBER EIGHT IN THE ALBANY HOTEL COFFEE SHOP. THIS ARTICLE WENT ON TO STATE THAT HE HAD CONVEYED THIS INFORMATION TO HIS BISHOP RICHARD HANSON, CHURCH OF CHRIST OF THE LATTER DAY SAINTS, AND WHEN NO ARREST WAS MADE HE HAD GOTTEN IN CONTACT WITH HIS ATTORNEY RONALD I. ZALL AND ASKED HIM ABOUT THE POSSIBILITY OF GRAHAMS SUING HIM ~~PAREN~~(MESSERVY)~~PAREN~~ FOR SLANDER. IT IS POINTED OUT THAT THIS INFORMATION FIRST CAME TO THE ATTENTION OF ASAC MOORE FROM DON MARTIN, MANAGER OF SECURITY, UAL ON NOVEMBER SIX WHEN MARTIN INFORMED THAT A BISHOP HANSON OF THE MORMAN CHURCH STATED HE HAD A PARISHIONER WHO HAD INFORMATION THAT MIGHT BE IMPORTANT. ASAC MOORE CALLED BISHOP HANSON AND THROUGH HIM A MEETING WAS ARRANGED IN THE ALBANY COFFEE SHOP ON THE MORNING OF NOVEMBER EIGHT. AT THE TIME MESSERVY REPORTED INFORMATION ALREADY IN POSSESSION OF AGENTS IN THIS OFFICE OF HIS SUSPICIONS OF THE BURNING OF THE CROWN DASH A DRIVEIN, OWNED BY MRS. KING AND GRAHAM, AND HIS SUSPICIONS CONCERNING THE WRECKING OF GRAHAMS NINETEEN FIFTY FIVE CHEVROLET BY A TRAIN, BOTH OF WHICH HAD PREVIOUSLY BEEN FURNISHED THIS OFFICE BY OTHER SOURCES. NO OTHER INFORMATION OTHER THAN THAT ALREADY IN OUR POSSESSION WAS FURNISHED AND HE WAS SO INFORMED

END PAGE THREE---

PAGE FOUR---

ON NOVEMBER FOURTEEN WHEN HE TELEPHONICALLY CONTACTED ASAC MOORE AS TO HIS ELIGIBILITY FOR THE REWARD. IT IS OBVIOUS MESSERVY IS ATTEMPTING TO COLLECT A PORTION OF THE TWENTY FIVE THOUSAND DOLLARS REWARD TO WHICH HE IS NOT ENTITLED. INVESTIGATION TODAY RESULTED IN THE LOCATION OF THE RYALL ELECTRICAL SUPPLY COMPANY, FIVE NAUGHT NAUGHT LINCOLN, WHERE SUBJECT GRAHAM PROBABLY PURCHASED THE TIMING DEVICE USED IN HIS HOME MADE BOMB. HE BEGAN NEGOTIATIONS ON OCTOBER SEVENTEEN AND ORDERED A PARTICULAR TIMING DEVICE WHICH WAS NOT IN STOCK. THEY ORDERED IT FOR HQM. AFTER SEVERAL CHECKS BY PHONE HE PICKED IT UP IN PERSON ON OCTOBER TWENTY SIX. HE RETURNED ON OCTOBER TWENTY EIGHT STATING IT DID NOT WORK RIGHT FOR HIS PURPOSE AND EXCHANGED FOR ANOTHER. FIVE EMPLOYEES OF THIS CONCERN POSITIVELY IDENTIFY GRAHAM'S PHOTOGRAPH AND THE FACT THAT HE LEFT THE NAME JACK AND A PHONE NUMBER WHICH IS IDENTICAL WITH THE ONE IN GRAHAM'S HOME. INVOICES ARE AVAILABLE. ADDITIONAL CHECK OF DEBRIS OF CRASHED AIRLINER REVEALED ANOTHER PORTION OF BATTERY USED IN THE HOME MADE BOMB AS WELL AS PORTION OF WEB STRAP BOUGHT AT SURPLUS STORE TO REINFORCE SUITCASE. INVESTIGATION CONTINUING TO LOCATE SOURCE OF DYNAMITE.

END PAGE FOUR---

PAGE FIVE---

THERE WAS ALSO A STATEMENT IN THE SAME PAPER ATTRIBUTED TO JEROME R. STRICKLAND, GRAHAM'S ATTORNEY ~~QUOTE~~ THAT THE DETAILED CONFESSION GRAHAM SIGNED WAS OBTAINED BY THREAT. THE CHARGE WAS DENIED FLATLY BY KELLEY AND AGENTS OF THE FBI. ~~UNQUOTE~~. WE WERE NEVER ASKED ABOUT SUCH A STATEMENT, THEREFORE ASAC MOORE CONTACTED ATTORNEY STRICKLAND WHO DENIED HE ACCUSED THE FBI BUT SAID GRAHAM SAID HE WAS TOLD BY FBI AGENTS HIS STORY CONFLICTED WITH HIS, GRAHAM'S, WIFE AND HE SIGNED THE STATEMENT TO KEEP HIS WIFE FROM BEING ARRESTED FOR LYING. MR. STRICKLAND WAS TOLD IN NO UNCERTAIN TERMS THAT WE DID NOT APPRECIATE THE REMARK AND HE APOLOGISED STATING HE WAS MIS QUOTED.

REPRESENTATIVES OF MUTUAL OF OMAHA TODAY EXHIBITED TO AGENTS OF THIS OFFICE CARBON COPIES OF INSURANCE POLICIES AS FOLLOWS, THREE ONE SEVEN ONE, JACK G. GRAHAM, BENEFICIARY, FOR THIRTY-SEVEN THOUSAND FIVE HUNDRED DOLLARS. THREE ONE SEVEN TWO, HELEN R. HABLUTZEL FOR SIX THOUSAND TWO HUNDRED FIFTY DOLLARS. THREE ONE SEVEN NAUGHT, JACK GRAHAM, BENEFICIARY FOR THIRTY-SEVEN THOUSAND FIVE HUNDRED DOLLARS. THREE ONE SEVEN THREE, HELEN RALPH SMITH BENEFICIARY FOR SIX THOUSAND TWO HUNDRED FIFTY DOLLARS AND THREE ONE SIX NINE FOR FORTY-THREE THOUSAND SEVEN HUNDRED FIFTY DOLLARS, AND THREE ONE SIX EIGHT FOR EIGHTEEN THOUSAND SEVEN HUNDRED FIFTY DOLLARS WHICH WERE NOT FILLED OUT BUT WERE PROBABLY PREPARED BY GRAHAM AS THE NUMBERS AND TIME CHECKED, AND HE ADVISED ON INTERVIEW HE RUINED ONE OR TWO WHICH HE DID NOT EXECUTE PROPERLY. PHOTOSTAT COPIES MADE OF THESE FOR DN FILES.

On 11/14/55

[redacted] made available a letter written by Mrs. DAISIE KING, one of the victims in the DC-6 airliner which was sabotaged on 11/1/55. b7C

In this letter, DAISIE KING states "JACK had my ticket when I returned to Denver Sat." This would indicate that the subject, JACK GRAHAM, was making the arrangements for DAISIE KING to fly from Denver to Seattle and as early as October 29th was making plans to kill Mrs. KING for her estate and insurance. Copies of instant letter attached.

[redacted] explained that [redacted] and the KING family [redacted] and that [redacted]

[redacted] She advised the KING family had been well off financially and owned a home in Florida and that DAISIE KING operated two ice cream parlors in Denver. [redacted] knew subject, JACK GRAHAM, and was cognizant of his arrest for forgery and selling of liquor. She said that JACK GRAHAM always impressed her as being a normal individual and to the best of her knowledge has never manifested any signs of mental disturbances. [redacted] had destroyed the envelope in which instant letter was transmitted and she has requested that instant letter be returned to her, however this office is attempting to make arrangements with Mrs. HUFFMAN whereby instant letter can be held until the consummation of the legal actions in this matter. b7C

Dear [redacted] Jack had my ticket when I returned to Denver Sat. The plane he had to get it on (because of strike) only leaves me 40 minutes in Seattle at midnight - so will go on up & plan a day coming back to stop over. Am anxious to get up there. The Grandma -? Maybe after I get there I'll be ready to return in a week - can't seem to get settled anywhere, but hope to find my place before too long. Saw Ole Friday - He is fine.

Had a hard trip back. Snow & cold - The roads over the passes were just one sheet of ice - First time I've ever minded driving alone.

Will get moving. Have a number of things to do - Store the car & always last minute things.
Love
Daisy
